

## Helicopter Maintenance

Located in the heart of Europe, RUAG Aerospace offers a wide range of services including maintenance, repair and overhaul down to the component level. Our highly motivated and experienced staff will be pleased to find the best solution for your requirements.

We operate internationally recognised Quality Management systems together with advanced Quality Assurance procedures in order to ensure that the quality demands of our customers are fully met. Therefore we are approved by EASA and Eurocopter as an official Maintenance and Repair Center.

Core Competences
Line maintenance, troubleshooting and periodical inspections
