RUAG among the Top Six Employers for Engineers

Berne, 28 September 2017. RUAG is becoming ever more attractive as an employer in Switzerland. Once again, it has achieved a top ranking among the most attractive employers for engineering in Switzerland. In this year's Universum employer rankings, the international technology group was placed sixth, moving up two places compared to last year. For IT specialists and natural scientists, too, RUAG is gaining in appeal.

In a survey of professional engineers conducted by Universum, RUAG is in sixth place among the most attractive employers in Switzerland. The technology company was ranked eighth last year.

In addition, RUAG advanced nine places in the ranking among professional IT specialists and is now 24th, while it even moved up 25 places among professionals with a training in the natural sciences to currently rank 38th.

Dr Christian Ferber, Chief Human Resource Officer, is delighted at another good ranking and RUAG's positive profile as an employer: "As an innovative technology group, RUAG offers its staff interesting and challenging work in an international environment. These factors are well known among potential employees."
